

ATASCOSA COUNTY JUDGES REPORT

I want everyone in Atascosa County to know that we continue to focus most of my offices' efforts on protecting you. I meet with our EMS Director and Emergency Manager every day. We review all pending tests and existing positive tests (still 2 as of this writing) and any self – quarantines. We are working every day to bring in supplies such as N95 masks, surgical masks, protective suits and gowns for our EMS, and other supplies for our workers.

Your county is not closed but we are operating on a limited basis for the safety of our people. Call ahead to any court or department you need help from before you head this way. Plan everything, including shopping for essential services. Use caution in all your interpersonal relationships. Our adult and juvenile detention centers are fully functional. They along with all the county's law enforcement, EMS, and medical personnel put their health and lives on the line every day to keep us safe and healthy.

I will be asking the Commissioners' to extend our emergency conditions with just a few changes on Friday the 3rd along with the Governor's new orders. The Governor is trying his best to use the states' resources to keep us safe. Please pray for all our leaders, whether you voted for them or not. We need God's Wisdom and Divine direction in everything.

Be safe and be careful in all that you do. Vaya Con Dios!

Thanks for listening. 😊 We want you to be proud of your county government.

Quote of the week, "I once wanted to become an atheist, but I gave it up – they have no holidays." Henny Youngman.
