

ATASCOSA COUNTY JUDGES REPORT

I am so proud of what we have done with the County Guardianship program. We have two court visitors who have worked to make our guardianship inventory current and works to maintain all new ones and all old ones. The wards of a guardianship is very possibly one of the most vulnerable citizens in our county and is the County Judge's responsibility to make sure they are cared for.

If you know of a person who you think needs care, you can call Adult Protective Services hotline at 800-252-5400 and report a need. Please don't hesitate. If you have questions you can always call me. That is what I am here for.

David Prasifka, our Emergency Services Manager manages the I – Info program for our county. This program sends out notices to your cell phones, if you are signed up of potential bad weather. Also road closures, weather warning ... any kind of emergency notification you might need. To sign up, go to the internet and log into <http://r.i-info.com/rc/arc>.

The more Atascosa Citizens we can get on this network expands the information notification of emergency events in our county. It is worth signing up just to get the weather alerts. Please, if you are not signed up do so right away.

Judy Wilkerson

Closing quote, "Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world." Albert Einstein.

Thanks for listening.
We want you to be proud of your County Government.
